

Rules for classes at *ada* Studio

based on the SARS-CoV-2 Containment Measures Ordinance of the State of Berlin

The current situation around the corona pandemic makes it necessary to establish additional rules for the use of *ada* studio and the behaviour there. Everyone will already know the general rules of hygiene. We have additional rules which we formulate in our responsibility as head of the studio and which must be followed accordingly.

Maximum 8 persons who are **vaccinated or recovered** according to §6c SARS-CoV-2-Infection Protection Measures Ordinance (**2G rule**) are allowed to stay for classes at *ada* studio (84 sqm) at the same time. They must follow the general rules of hygiene:

- At least 1.5m distance to other people
- Avoid touching
- Sneezing and coughing in the crook of your arm, at the same time turning away from other people
- Keep hands away from face
- Regular and thorough hand disinfection and washing

In addition, please make sure that you and your team members follow these rules:

- Organising and monitoring the rules of distance on your own initiative during your stay at *ada* studio and in the foyer
- Reduce the number of people present to the possible minimum (max. number: 8 people)
- Creating a documentation of the presence of all participants in the studio including contact details
- Each participating person is asked to have an overview of daily personal contacts
- No invitation of uninvolved persons to the classes in order to avoid increasing the number of contacts
- If it is not possible to keep the distance of 1.5m between each other at all times, a mask must be worn (the following applies: keeping a distance takes precedence over a mask; you must bring your own mask).
- Regular ventilation of the studio
- Breaks should preferably be taken outdoors.
- You must bring your own food and drink (including your own containers) and only for your own consumption; food should preferably be eaten outdoors or in the foyer.
- Please bring your own crockery, bottles and glasses/cups.
- Special attention must be paid to order and cleanliness in the studio.
- Showers may not be used at the moment.
- Persons with cold symptoms are not allowed to participate in the classes.
- Should anyone learn that he/she has been in contact with an infected person, he/she must inform *ada* studio immediately and stay away from the classes until further notice.
- If anyone is suspected of having Covid-19, *ada* studio must be informed immediately; the person suspected of having Covid-19 must immediately consult a doctor and immediately enter home quarantine. *ada* studio must also be informed immediately of the result of the test for Covid-19.
